(B) the flowing or producing of wells from a groundwater reservoir if the water produced is not used for a beneficial purpose;

(C) escape of groundwater from a groundwater reservoir to any other reservoir or geologic strata that does not contain groundwater;

(D) pollution or harmful alteration of

groundwater in a groundwater reservoir by saltwater or by other deleterious matter admitted from another stratum or from the surface of the ground;

(E) willfully or negligently causing, suffering, or allowing groundwater to escape into any river, creek, natural watercourse, depression, lake, reservoir, drain, sewer, street, highway, road, or road ditch, or onto any land other than that of the owner of the well unless such discharge is authorized by permit, rule, or order issued by the commission under Chapter 26;

(F) groundwater pumped for irrigation that escapes as irrigation tailwater onto land other than that of the owner of the well unless permission has been granted by the occupant of the land receiving the discharge; or

(a) In this section, "best available science" means conclusions that are logically and reasonably derived using statistical or quantitative data, techniques, analyses, and studies that are publicly available to reviewing scientists and can be employed to address a specific scientific question.

(b) In order to provide for the conservation, preservation, protection, recharging, and prevention of waste of groundwater, and of groundwater reservoirs or their subdivisions, and to control subsidence caused by withdrawal of water from those groundwater reservoirs or their subdivisions, consistent with the objectives of Section 59, Article XVI, Texas Constitution, groundwater

conservation districts may be created as provided by this chapter. Groundwater conservation districts created as provided by this chapter are the state's preferred method of groundwater management in order to protect property rights, balance the conservation and development of groundwater to meet the needs of this state, and use the best available science in the conservation and development of groundwater through rules developed, adopted, and promulgated by a district in accordance with the provisions of this chapter.

Sec. 36.002. OWNERSHIP OF GROUNDWATER. (a) The legislature recognizes that a landowner owns the groundwater below the surface of the landowner's land as real property.

(b) The groundwater ownership and rights described by this section entitle the landowner, including a landowner's lessees, heirs, or assigns, to:

(1) drill for and produce the groundwater below the surface of real property, subject to Subsection (d), without causing waste or malicious drainage of other property or negligently causing subsidence; and

(2) have any other right recognized under common law.

(b-1) The groundwater ownership and rights described by this section do not:

(1) entitle a landowner, including a landowner's lessees, heirs, or assigns, to the right to capture a specific amount of groundwater below the surface of that landowner's land; or

(2) affect the existence of common law defenses or other defenses to liability under the rule of capture.

(c) Nothing in this code shall be construed as granting the authority to deprive or divest a landowner, including a landowner's lessees, heirs, or assigns, of the groundwater ownership and rights described by this section.

(d) This section does not:

(1) prohibit a district from limiting or prohibiting the drilling of a well by a landowner for failure or inability to comply with minimum well spacing or tract size requirements adopted by the district;

(2) affect the ability of a district to regulate groundwater production as authorized under Section 36.113, 36.116, or 36.122 or otherwise under this chapter or a special law governing a district; or

(3) require that a rule adopted by a district allocate to each landowner a proportionate share of available groundwater for production from the aquifer based on the number of acres owned by the landowner.

(e) This section does not affect the ability to regulate groundwater in any manner authorized under:

(1) Chapter 626, Acts of the 73rd Legislature, Regular Session, 1993, for the Edwards Aquifer Authority;

(2) Chapter 8801, Special District Local Laws Code, for the Harris-Galveston Subsidence District; and

(3) Chapter 8834, Special District Local Laws Code, for the Fort Bend Subsidence District.

#### SUBCHAPTER B. CREATION OF DISTRICT

Sec. 36.011. METHOD OF CREATING DISTRICT. (a) A groundwater conservation district may be created under and subject to the authority, conditions, and restrictions of Section 59, Article XVI, Texas Constitution.

(b) The commission has exclusive jurisdiction over the creation of districts.

Added by Acts 1995, 74th Leg., ch. 933, Sec. 2, eff. Sept. 1, 1995. Amended by Acts 2001, 77th Leg., ch. 966, Sec. 2.32, eff. Sept. 1, 2001.

Sec. 36.012. COMPOSITION OF DISTRICT. (a) A district may include all or part of one or more counties, cities, districts, or other political subdivisions.

(b) A district may not include territory located in more than one county except on a majority vote of the voters residing within the territory in each county sought to be included in the district at an election called for that purpose.

(c) The boundaries of a district must be coterminous

with or inside the boundaries of a management area or a priority groundwater management area.

(d) A district may consist of separate bodies of land separated by land not included in the district.

(e) A majority of the voters in a segregated area must approve the creation of the district before that area may be included in the district.

(f) This section does not apply to districts created under Section 36.0151.

Added by Acts 1995, 74th Leg., ch. 933, Sec. 2, eff. Sept. 1, 1995. Amended by Acts 1997, 75th Leg., ch. 1010, Sec. 4.22, eff. Sept. 1, 1997; Acts 2001, 77th Leg., ch. 966, Sec. 2.33, eff. Sept. 1, 2001.

Sec. 36.013. PETITION TO CREATE DISTRICT. (a) A petition requesting creation of a district must be filed with the commission for review and certification under Section 36.015.

(b) The petition filed pursuant to this section must be signed by:

(1) a majority of the landowners within the proposed district, as indicated by the county tax rolls; or

(2) if there are more than 50 landowners in the

proposed district, at least 50 of those landowners.

(c) The petition must include:

(1) the name of the proposed district;

(2) the area and boundaries of the proposed district, including a map generally outlining the boundaries of the proposed district;

(3) the purpose or purposes of the district;

(4) a statement of the general nature of any projects proposed to be undertaken by the district, the necessity and feasibility of the work, and the estimated costs of those projects according to the persons filing the projects if the projects are to be funded by the sale of bonds or notes;

(5) the names of at least five individuals qualified to serve as temporary directors; and

(6) financial information, including the projected maintenance tax or production fee rate and a proposed budget of revenues and expenses for the district. Added by Acts 1995, 74th Leg., ch. 933, Sec. 2, eff. Sept. 1, 1995. Amended by Acts 1997, 75th Leg., ch. 1010, Sec. 4.23, eff. Sept. 1, 1997; Acts 2001, 77th Leg., ch. 966, Sec. 2.34, eff. Sept. 1, 2001.

Sec. 36.014. NOTICE AND PUBLIC MEETING ON DISTRICT

CREATION. (a) If a petition is filed under Section 36.013, the commission shall give notice of the application and shall conduct a public meeting in a central location within the area of the proposed district on the application not later than the 60th day after the date the commission issues notice. The notice must contain the date, time, and location of the public meeting and must be published in one or more newspapers of general circulation in the area of the proposed district.

(b) If the petition contains a request to create a management area in all or part of the proposed district, the notice must also be given in accordance with the requirements in Section 35.006 for the designation of management areas.

Added by Acts 1995, 74th Leg., ch. 933, Sec. 2, eff. Sept. 1, 1995. Amended by Acts 1997, 75th Leg., ch. 1070, Sec. 1, eff. Sept. 1, 1997; Acts 2001, 77th Leg., ch. 966, Sec. 2.35, eff. Sept. 1, 2001.

Sec. 36.015. COMMISSION CERTIFICATION AND ORDER.

(a) Not later than the 90th day after the date the commission holds a public meeting on a petition under Section 36.014, the commission shall certify the petition if the petition is administratively complete. A petition

is administratively complete if it complies with the requirements of Sections 36.013(b) and (c).

(b) The commission may not certify a petition if the commission finds that the proposed district cannot be adequately funded to carry out its purposes based on the financial information provided in the petition under Section 36.013(c)(6) or that the boundaries of the proposed district do not provide for the effective management of the groundwater resources. The commission shall give preference to boundary lines that are coterminous with those of a groundwater management area but may also consider boundaries along existing political subdivision boundaries if such boundaries would facilitate district creation and confirmation.

(c) If a petition proposes the creation of a district in an area, in whole or in part, that has not been designated as a management area, the commission shall provide notice to the Texas Water Development Board. On the receipt of notice from the commission, the Texas Water Development Board shall initiate the process of designating a management area for the area of the proposed district not included in a management area. The commission may not certify the petition until the Texas Water Development Board has adopted a rule whereby the boundaries

of the proposed district are coterminous with or inside the boundaries of a management area.

(d) If the commission does not certify the petition, the commission shall provide to the petitioners, in writing, the reasons for not certifying the petition. The petitioners may resubmit the petition, without paying an additional fee, if the petition is resubmitted within 90 days after the date the commission sends the notice required by this subsection.

(e) If the commission certifies the petition as administratively complete, the commission shall issue an order, notify the petitioners, and appoint temporary directors as provided by Section 36.016.

(f) Refusal by the commission to certify a petition to create a district does not invalidate or affect the designation of any management area.

Added by Acts 1995, 74th Leg., ch. 933, Sec. 2, eff. Sept. 1, 1995. Amended by Acts 2001, 77th Leg., ch. 966, Sec. 2.36, eff. Sept. 1, 2001.

Sec. 36.0151. CREATION OF DISTRICT FOR PRIORITY GROUNDWATER MANAGEMENT AREA. (a) If the commission is required to create a district under Section 35.012(b), it shall, without an evidentiary hearing, issue an order

creating the district and shall provide in its order that temporary directors be appointed under Section 36.0161 and that an election be called by the temporary directors to authorize the district to assess taxes and to elect permanent directors.

(b) The commission shall notify the county commissioners court of each county with territory in the district of the district's creation as soon as practicable after issuing the order creating the district.

(c) The commission may amend the territory in an order issued under Section 35.008 or this section to adjust for areas that, in the time between when the order was issued under Section 35.008 and the order is issued under this section, have:

(1) been added to an existing district or created as a separate district; or

(2) not been added to an existing district or created as a separate district.

(d) In making a modification under Subsection (c), the commission may recommend:

(1) creation of a new district in the area; or

(2) that the area be added to a different district.

(e) Except as provided by Section 35.013(h), a change

in the order under Subsection (c) does not affect a deadline under Section 35.012 or 35.013.

(f) Before September 1, 2021, the commission may not create a groundwater conservation district under this section in a county:

(1) in which the annual amount of surface water used is more than 50 times the annual amount of groundwater produced;

(2) that is located in a priority groundwater management area; and

(3) that has a population greater than 2.3 million.

(g) To the extent of a conflict between Subsection (f) and Section 35.012, Subsection (f) prevails.

(h) The commission may charge an annual fee not to exceed \$500 to a county described by Subsection (f) for the purpose of studying compliance with that subsection in that county and the overall groundwater consumption in that county.

Added by Acts 1997, 75th Leg., ch. 1010, Sec. 4.24, eff. Sept. 1, 1997. Amended by Acts 2001, 77th Leg., ch. 966, Sec. 2.37, eff. Sept. 1, 2001.

Sec. 36.016. APPOINTMENT OF TEMPORARY DIRECTORS.

(a) If the commission certifies a petition to create a district under Section 36.015, the commission shall appoint the temporary directors named in the petition. If the commission dissolves a district's board under Section 36.303, it shall appoint five temporary directors.

(b) If the commission creates a district under Section 36.0151, the county commissioners court or courts of the county or counties that contain the area of the district shall, within 90 days after receiving notification by the commission under Section 36.0151(b), appoint five temporary directors, or more if the district contains the territory of more than five counties, for the district's board using the method provided by Section 36.0161. A county commissioners court shall not make any appointments after the expiration of the 90-day period. If fewer than five temporary directors have been appointed at the expiration of the period, the commission shall

appoint additional directors so that the board has at least five members.

(c) Temporary directors appointed under this section shall serve until the initial directors are elected and have qualified for office or until the voters fail to approve the creation of the district.

(d) If an appointee of the commission or of a county commissioners court fails to qualify or if a vacancy occurs in the office of temporary director, the commission or the county commissioners court, as appropriate, shall appoint an individual to fill the vacancy.

(e) As soon as all temporary directors have qualified, the directors shall meet, take the oath of office, and elect a chairman and vice chairman from among their membership. The chairman shall preside at all meetings of the board and, in the chairman's absence, the vice chairman shall preside.

Added by Acts 1995, 74th Leg., ch. 933, Sec. 2, eff. Sept. 1, 1995. Amended by Acts 1997, 75th Leg., ch. 1010, Sec. 4.25, eff. Sept. 1, 1997; Acts 2001, 77th Leg., ch. 966, Sec. 2.38, eff. Sept. 1, 2001.

Sec. 36.0161. METHOD FOR APPOINTING TEMPORARY DIRECTORS FOR DISTRICT IN PRIORITY GROUNDWATER MANAGEMENT

AREA. (a) If a district in a priority groundwater management area is:

(1) contained within one county, the county commissioners court of that county shall appoint five temporary directors for the district;

(2) contained within two counties, the county commissioners court of each county shall appoint at least one temporary director, with the appointments of the three remaining directors to be apportioned as provided by Subsection (b);

(3) contained within three counties, the county commissioners court of each county shall appoint at least one temporary director, with the appointments of the two remaining directors to be apportioned as provided by Subsection (b);

(4) contained within four counties, the county commissioners court of each county shall appoint at least one temporary director, with the appointment of the remaining director to be apportioned as provided by Subsection (b); or

(5) contained within five or more counties, the county commissioners court of each county shall appoint one temporary director.

(b)(1) In this subsection, "estimated groundwater use"

means the estimate of groundwater use in acre-feet developed by the commission under Subsection (c) for the area of a county that is within the district.

(2) The apportionment of appointments under Subsection (a) shall be made by the commission so as to reflect, as closely as possible, the proportion each county's estimated groundwater use bears to the sum of the estimated groundwater use for the district as determined under Subsection (c). The commission shall by rule determine the method it will use to implement this subdivision.

(c) If a district for which temporary directors are to be appointed is contained within two, three, or four counties, the commission shall develop an estimate of annual groundwater use in acre-feet for each county area within the district.

Added by Acts 1997, 75th Leg., ch. 1010, Sec. 4.26, eff. Sept. 1, 1997.

Sec. 36.017. CONFIRMATION AND DIRECTORS' ELECTION FOR DISTRICT IN A MANAGEMENT AREA. (a) For a district created under Section 36.015, not later than the 120th day after the date all temporary directors have been appointed and have qualified, the temporary directors shall meet and

order an election to be held within the boundaries of the proposed district to approve the creation of the district and to elect permanent directors.

(b) In the order calling the election, the temporary directors shall designate election precincts and polling places for the election. In designating the polling places, the temporary directors shall consider the needs of all voters for conveniently located polling places.

(c) The temporary directors shall publish notice of the election at least one time in at least one newspaper with general circulation within the boundaries of the proposed district. The notice must be published before the 30th day preceding the date of the election.

(d) The ballot for the election must be printed to provide for voting for or against the proposition: "The creation of the \_\_\_\_\_ Groundwater Conservation District." If the district levies a maintenance tax for payment of its expenses, then an additional proposition shall be included with the following language: "The levy of a maintenance tax at a rate not to exceed \_\_\_\_\_ cents for each \$100 of assessed valuation." The same ballot or another ballot must provide for the election of permanent directors, in accordance with Section 36.059.

(e) Immediately after the election, the presiding

judge of each polling place shall deliver the returns of the election to the temporary board, and the board shall canvass the returns and declare the result. The board shall file a copy of the election result with the commission.

(f) If a majority of the votes cast at the election favor the creation of the district, the temporary board shall declare the district created and shall enter the result in its minutes.

(g) If a majority of the votes cast at the election are against the creation of the district, the temporary board shall declare the district defeated and shall enter the result in its minutes. The temporary board shall continue operations in accordance with Subsection (h).

(h) If the majority of the votes cast at the election are against the creation of the district, the district shall have no further authority, except that any debts incurred shall be paid and the organization of the district shall be maintained until all the debts are paid.

(i) If a majority of the votes cast at the election are against the levy of a maintenance tax, the district shall set fees authorized by this chapter to pay for the district's regulation of groundwater in the district.

Sec. 36.0171. TAX AUTHORITY AND DIRECTORS' ELECTION FOR DISTRICT IN A PRIORITY GROUNDWATER MANAGEMENT AREA.

(a) For a district created under Section 36.0151, not later than the 120th day after the date all temporary directors have been appointed and have qualified, the temporary directors shall meet and order an election to be held within the boundaries of the proposed district to authorize the district to assess taxes and to elect permanent directors.

(b) In the order calling the election, the temporary directors shall designate election precincts and polling places for the election. In designating the polling places, the temporary directors shall consider the needs of all voters for conveniently located polling places.

(c) The temporary directors shall publish notice of the election at least once in at least one newspaper with general circulation within the boundaries of the proposed district. The notice must be published before the 30th

day preceding the date of the election.

#### SUBCHAPTER C. ADMINISTRATION

Sec. 36.051. BOARD OF DIRECTORS. (a) The governing body of a district is the board of directors, which shall consist of not fewer than five and not more than 11 directors elected for four-year terms. The number of directors may be changed as determined by the board when

territory is annexed by the district.

(b) A member of a governing body of another political subdivision is ineligible for appointment or election as a director. A director is disqualified and vacates the office of director if the director is appointed or elected as a member of the governing body of another political subdivision. This subsection does not apply to any district with a population less than 50,000.

(c) Vacancies in the office of director shall be filled by appointment of the board. If the vacant office is not scheduled for election for longer than two years at the time of the appointment, the board shall order an election for the unexpired term to be held as part of the next regularly scheduled director's election. The appointed director's term shall end on qualification of the director elected at that election.

(d) In a district with a population of less than 50,000, the common law doctrine of incompatibility does not disqualify:

(1) a member of the governing body or officer of another political subdivision other than a municipality or county from serving as a director of the district; or

(2) a director of the district from serving as a member of the governing body or officer of another

political subdivision other than a municipality or county. Added by Acts 1995, 74th Leg., ch. 933, Sec. 2, eff. Sept. 1, 1995. Amended by Acts 2003, 78th Leg., ch. 78, Sec. 1, eff. May 19, 2003.

This chapter prevails over any other law in conflict or inconsistent with this chapter, except any special law governing a specific district shall prevail over this chapter.

(b) Notwithstanding Subsection (a), the following provisions prevail over a conflicting or inconsistent provision of a special law that governs a specific district:

- (1) Sections 36.107-36.108;
- (2) Sections 36.159-36.161; and
- (3) Subchapter I.

Sec. 36.053. QUORUM. A majority of the membership of the board constitutes a quorum for any meeting, and a concurrence of a majority of the entire membership of the board is sufficient for transacting any business of the district.

Added by Acts 1995, 74th Leg., ch. 933, Sec. 2, eff. Sept. 1, 1995.

Sec. 36.054. OFFICERS. (a) After a district is created and the directors have qualified, the board shall meet, elect a president, vice president, secretary, and any other officers or assistant officers as the board may deem necessary and begin the discharge of its duties.

(b) After each directors' election, the board shall meet and elect officers.

(c) The president is the chief executive officer of the district, presides at all meetings of the board, and shall execute all documents on behalf of the district. The vice president shall act as president in case of the absence or disability of the president. The secretary is responsible for seeing that all records and books of the district are properly kept and shall attest the president's signature on all documents.

(d) The board may appoint another director, the

general manager, or any employee as assistant or deputy secretary to assist the secretary, and any such person shall be entitled to certify as to the authenticity of any record of the district, including but not limited to all proceedings relating to bonds, contracts, or indebtedness of the district.

(e) After any election or appointment of a director, a district shall notify the executive director within 30 days after the date of the election or appointment of the name and mailing address of the director chosen and the date that director's term of office expires. The executive director shall provide forms to the district for such purpose.

office prescribed by the constitution for public officers.

(c) Before beginning to perform the duties of office, each director shall execute a bond for \$10,000 payable to the district and conditioned on the faithful performance of that director's duties. All bonds of the directors shall be approved by the board and paid for by the district.

(d) The sworn statement shall be filed as prescribed by the constitution. The bond and oath shall be filed with the district and retained in its records. A duplicate original of the oath shall also be filed with the secretary of state within 10 days after its execution and need not be filed before the new director begins to perform the duties of office.

Sec. 36.056. GENERAL MANAGER. (a) The board may employ or contract with a person to perform such services as general manager for the district as the board may from time to time specify. The board may delegate to the general manager full authority to manage and operate the affairs of the district subject only to orders of the

board.

(b) The board may delegate to the general manager the authority to employ all persons necessary for the proper handling of the business and operation of the district and to determine the compensation to be paid all employees other than the general manager.

(c) Except in a district that is composed of the territory of more than one county, a director may be employed as general manager of the district. The compensation of a general manager who also serves as a director shall be established by the other directors.

Added by Acts 1995, 74th Leg., ch. 933, Sec. 2, eff. Sept. 1, 1995.

Sec. 36.057. MANAGEMENT OF DISTRICT. (a) The board shall be responsible for the management of all the affairs of the district. (b) The board shall set the compensation and terms

for consultants.

(c) In selecting attorneys, engineers, auditors, financial advisors, or other professional consultants, the district shall follow the procedures provided in the Professional Services Procurement Act, Subchapter A, Chapter 2254, Government Code.

(d) The board shall require an officer, employee, or consultant who collects, pays, or handles any funds of the district to furnish good and sufficient bond, payable to the district, in an amount determined by the board to be sufficient to safeguard the district. The bond shall be conditioned on the faithful performance of that person's duties and on accounting for all funds and property of the district. Such bond shall be signed or endorsed by a surety company authorized to do business in the state.

(e) The board may pay the premium on surety bonds required of officials, employees, or consultants of the district out of any available funds of the district, including proceeds from the sale of bonds.

(f) The board may adopt bylaws to govern the affairs of the district to perform its purposes. The board may, by resolution, authorize its general manager or other employee to execute documents on behalf of the district.

(g) The board shall also have the right to purchase

(b) The directors of the district shall be elected according to the precinct method as defined by Chapter 12, page 1105, Special Laws, Acts of the 46th Legislature,

Regular Session, 1939. To be qualified to be elected as a director, a person must be a registered voter in the precinct that the person represents. If any part of a municipal corporation is a part of one precinct, then no part of the municipal corporation shall be included in another precinct, except that a municipal corporation having a population of more than 200,000 may be divided between two or more precincts. In a multicounty district, not more than two of the five precincts may include the same municipal corporation or part of the same municipal corporation.

(c) In order to receive fees of office and to receive

reimbursement for expenses, each director shall file with the district a verified statement showing the number of days actually spent in the service of the district and a general description of the duties performed for each day of service.

(d) Section 36.052(a) notwithstanding, Subsection (a) prevails over any other law in conflict with or inconsistent with that subsection, including a special law governing a specific district unless the special law prohibits the directors of that district from receiving a fee of office. If the application of this section results in an increase in the fees of office for any district, that district's fees of office shall not increase unless the district's board by resolution authorizes payment of the higher fees.

(e) For liability purposes only, a director is considered a district employee under Chapter 101, Civil Practice and Remedies Code, even if the director does not receive fees of office voluntarily, by district policy, or through a statutory exception to this section.

#### SUBCHAPTER D. POWERS AND DUTIES

Sec. 36.101. RULEMAKING POWER. (a) A district may make and enforce rules, including rules limiting groundwater production based on tract size or the spacing of wells, to provide for conserving, preserving, protecting, and recharging of the groundwater or of a groundwater reservoir or its subdivisions in order to control subsidence, prevent degradation of water quality, or prevent waste of groundwater and to carry out the powers and duties provided by this chapter. In adopting a rule under this chapter, a district shall:

(1) consider all groundwater uses and needs;

(2) develop rules that are fair and impartial;

(3) consider the groundwater ownership and rights described by Section 36.002;

(4) consider the public interest in conservation, preservation, protection, recharging, and prevention of waste of groundwater, and of groundwater reservoirs or their subdivisions, and in controlling subsidence caused by withdrawal of groundwater from those groundwater reservoirs or their subdivisions, consistent with the objectives of Section 59, Article XVI, Texas Constitution;

(5) consider the goals developed as part of the district's management plan under Section 36.1071; and

(6) not discriminate between land that is irrigated for production and land that was irrigated for production and enrolled or participating in a federal conservation program.

(a-1) Any rule of a district that discriminates between land that is irrigated for production and land that was irrigated for production and enrolled or participating in a federal conservation program is void.

(b) Except as provided by Section 36.1011, after notice and hearing, the board shall adopt and enforce rules to implement this chapter, including rules governing procedure before the board.

(c) The board shall compile its rules and make them available for use and inspection at the district's principal office.

(d) Not later than the 20th day before the date of a rulemaking hearing, the general manager or board shall:

(1) post notice in a place readily accessible to the public at the district office;

(2) provide notice to the county clerk of each county in the district;

(3) publish notice in one or more newspapers of general circulation in the county or counties in which the district is located;

(4) provide notice by mail, facsimile, or electronic mail to any person who has requested notice under Subsection (i); and

(5) make available a copy of all proposed rules at a place accessible to the public during normal business hours and, if the district has a website, post an electronic copy on a generally accessible Internet site.

(e) The notice provided under Subsection (d) must include:

(1) the time, date, and location of the rulemaking hearing;

(2) a brief explanation of the subject of the rulemaking hearing; and

(3) a location or Internet site at which a copy of the proposed rules may be reviewed or copied.

(f) The presiding officer shall conduct a rulemaking hearing in the manner the presiding officer determines to be most appropriate to obtain information and comments relating to the proposed rule as conveniently and expeditiously as possible. Comments may be submitted orally at the hearing or in writing. The presiding officer may hold the record open for a specified period after the conclusion of the hearing to receive additional written comments.

(g) A district may require each person who participates in a rulemaking hearing to submit a hearing registration form stating:

(1) the person's name;

(2) the person's address; and

(3) whom the person represents, if the person is not at the hearing in the person's individual capacity.

(h) The presiding officer shall prepare and keep a record of each rulemaking hearing in the form of an audio or video recording or a court reporter transcription.

(i) A person may submit to the district a written request for notice of a rulemaking hearing. A request is effective for the remainder of the calendar year in which the request is received by the district. To receive notice of a rulemaking hearing in a later year, a person must submit a new request. An affidavit of an officer or employee of the district establishing attempted service by first class mail, facsimile, or e-mail to the person in accordance with the information provided by the person is proof that notice was provided by the district.

(j) A district may use an informal conference or consultation to obtain the opinions and advice of interested persons about contemplated rules and may appoint advisory committees of experts, interested

persons, or public representatives to advise the district about contemplated rules.

(k) Failure to provide notice under Subsection (d)(4) does not invalidate an action taken by the district at a rulemaking hearing.

Sec. 36.1011. EMERGENCY RULES. (a) A board may adopt an emergency rule without prior notice or hearing, or with an abbreviated notice and hearing, if the board:

(1) finds that a substantial likelihood of

imminent peril to the public health, safety, or welfare, or a requirement of state or federal law, requires adoption of a rule on less than 20 days' notice; and

(2) prepares a written statement of the reasons for its finding under Subdivision (1).

(b) Except as provided by Subsection (c), a rule adopted under this section may not be effective for longer than 90 days.

(c) If notice of a hearing on the final rule is given not later than the 90th day after the date the rule is adopted, the rule is effective for an additional 90 days.

(d) A rule adopted under this section must be adopted at a meeting held as provided by Chapter 551, Government Code.

Sec. 36.1015. RULES FOR PERMITS IN BRACKISH GROUNDWATER PRODUCTION ZONES. (a) In this section:

(1) "Designated brackish groundwater production zone" means an aquifer, subdivision of an aquifer, or geologic stratum designated under Section 16.060(b)(5).

(2) "Development board" means the Texas Water Development Board.

(3) "Gulf Coast Aquifer" means the system of hydrogeologic units that run along the Gulf Coast from the Sabine River to the Rio Grande, including:

(A) the Catahoula confining system, including the Frio Formation, the Anahuac Formation, and the Catahoula Tuff or Sandstone;

(B) the Jasper Aquifer, including the Oakville Sandstone and Fleming Formation;

(C) the Burkeville confining system separating the Jasper Aquifer from the Evangeline Aquifer;

(D) the Evangeline Aquifer, including the Goliad Sand; and

(E) the Chicot Aquifer, including the Willis Sand, the Bentley Formation, the Montgomery Formation, the Beaumont Clay, and alluvial deposits at the surface.

(b) The requirements of this section do not apply to a district that:

(1) overlies the Dockum Aquifer; and

(2) includes wholly or partly 10 or more

counties.

(c) A district located over any part of a designated brackish groundwater production zone may adopt rules to govern the issuance of permits under this section for the completion and operation of a well for the withdrawal of brackish groundwater from a designated brackish groundwater production zone and shall adopt rules described by this subsection if the district receives a petition from a person with a legally defined interest in groundwater in the district. The district must adopt the rules not later than the 180th day after the date the district receives the petition. Rules adopted under this subsection apply only to a permit for a project described by Subsection (d).

(d) A person may obtain a permit under rules adopted under this section for projects including:

(1) a municipal project designed to treat brackish groundwater to drinking water standards for the purpose of providing a public source of drinking water; and

(2) an electric generation project to treat brackish groundwater to water quality standards sufficient for the project needs.

(e) The rules adopted under this section must:

(1) provide for processing an application for a brackish groundwater production zone operating permit in the same manner as an application for an operating permit for a fresh groundwater well, except as provided by this section;

(2) allow withdrawals and rates of withdrawal of brackish groundwater from a designated brackish groundwater production zone not to exceed and consistent with the withdrawal amounts identified in Section 16.060(e);

(3) provide for a minimum term of 30 years for a permit issued for a well that produces brackish groundwater from a designated brackish groundwater production zone;

(4) require implementation of a monitoring system recommended by the development board to monitor water levels and water quality in the same or an adjacent aquifer, subdivision of an aquifer, or geologic stratum in which the designated brackish groundwater production zone is located;

(5) for a project located in a designated brackish groundwater production zone in the Gulf Coast Aquifer, require reasonable monitoring by the district of land elevations to determine if production from the project is causing or is likely to cause subsidence during the

permit term;

(6) require from the holder of a permit issued under rules adopted under this section annual reports that must include:

(A) the amount of brackish groundwater withdrawn;

(B) the average monthly water quality of the brackish groundwater withdrawn and in the monitoring wells; and

(C) aquifer levels in both the designated brackish groundwater production zone and in any aquifer, subdivision of an aquifer, or geologic stratum for which the permit requires monitoring;

(7) provide greater access to brackish groundwater by simplifying procedure, avoiding delay in permitting, saving expense for the permit seeker, and providing flexibility to permit applicants and the district;

(8) be consistent with and not impair property rights described by Sections 36.002(a) and (b); and

(9) specify all additional information that must be included in an application.

(f) Additional information required under Subsection (e)(9) must be reasonably related to an issue the district

is authorized to consider.

(g) An application for a brackish groundwater production zone operating permit must include:

(1) the proposed well field design compared to the designated brackish groundwater production zone;

(2) the requested maximum groundwater withdrawal rate for the proposed project;

(3) the number and location of monitoring wells needed to determine the effects of the proposed project on water levels and water quality in the same or an adjacent aquifer, subdivision of an aquifer, or geologic stratum in which the designated brackish groundwater production zone is located; and

(4) a report that includes:

(A) a simulation of the projected effects of the proposed production on water levels and water quality in the same or an adjacent aquifer, subdivision of an aquifer, or geologic stratum in which the designated brackish groundwater production zone is located;

(B) a description of the model used for the simulation described by Paragraph (A); and

(C) sufficient information for a technical reviewer to understand the parameters and assumptions used in the model described by Paragraph (B).

(h) The district shall submit the application to the development board and the development board shall conduct a technical review of the application. The development board shall submit a report of the review of the application that includes:

(1) findings regarding the compatibility of the proposed well field design with the designated brackish groundwater production zone; and

(2) recommendations for the monitoring system described by Subsection (e)(4).

(i) The district may not schedule a hearing on the application until the district receives the report from the development board described by Subsection (h).

(j) The district shall provide the reports required under Subsection (e)(6) to the development board. Not later than the 120th day after the date the development board receives a request from the district, the development board shall investigate and issue a report on whether brackish groundwater production under the project that is the subject of the report from the designated brackish groundwater production zone is projected to cause:

(1) significant aquifer level declines in the same or an adjacent aquifer, subdivision of an aquifer, or geologic stratum that were not anticipated by the

development board in the designation of the zone;

(2) negative effects on quality of water in an aquifer, subdivision of an aquifer, or geologic stratum;  
or

(3) for a project located in a designated brackish groundwater production zone in the Gulf Coast Aquifer, subsidence during the permit term.

(k) After receiving from the development board a report issued under Subsection (j) and after notice and hearing subject to Subchapter M, the district may:

(1) amend the applicable permit to establish a production limit necessary to mitigate any negative effects identified by the report;

(2) approve a mitigation plan that alleviates any negative effects identified by the report; or

(3) both amend the permit to establish a production limit and approve a mitigation plan.

(l) Rules adopted under this section must provide that the production authorized from a designated brackish groundwater production zone is in addition to the amount of managed available groundwater provided under Section 36.108. To the extent possible, a district shall issue permits up to the point that the total volume of exempt and permitted groundwater production in a designated

brackish groundwater production zone equals the amount of brackish groundwater that may be produced annually to achieve the groundwater availability described by the development board in its designation of the brackish groundwater production zone under Section 16.060(e).

(m) A district may not adopt rules limiting access to the production of groundwater within a designated brackish groundwater production zone to only those projects described by Subsection (d).

(n) The district may grant or deny an application to extend a term under this section only using rules that were in effect at the time the application was submitted.

(o) An application for a permit under this section is governed solely by district rules consistent with this section.

Sec. 36.102. ENFORCEMENT OF RULES. (a) A district may enforce this chapter and its rules against any person by injunction, mandatory injunction, or other appropriate remedy in a court of competent jurisdiction.

(b) The board by rule may set reasonable civil penalties against any person for breach of any rule of the

district not to exceed \$10,000 per day per violation, and each day of a continuing violation constitutes a separate violation.

(c) A penalty under this section is in addition to any other penalty provided by the law of this state and may be enforced against any person by complaints filed in the appropriate court of jurisdiction in the county in which the district's principal office or meeting place is located.

(d) If the district prevails in any suit to enforce its rules, the district may seek and the court shall grant against any person, in the same action, recovery for attorney's fees, costs for expert witnesses, and other costs incurred by the district before the court. The amount of the attorney's fees shall be fixed by the court.

(e) In an enforcement action by a district against any person that is a governmental entity for a violation of district rules, the limits on the amount of fees, costs, and penalties that a district may impose under Section 36.122, 36.205, or this section, or under a special law governing a district operating under this chapter, constitute a limit of liability of the governmental entity for the violation. This subsection shall not be construed to prohibit the recovery by a district of fees and costs

under Subsection (d) in an action against any person that is a governmental entity.

Sec. 36.103. IMPROVEMENTS AND FACILITIES. (a) A district may build, acquire, or obtain by any lawful means any property necessary for the district to carry out its purpose and the provisions of this chapter.

(b) A district may:

(1) acquire land to erect dams or to drain lakes, draws, and depressions;

(2) construct dams;

(3) drain lakes, depressions, draws, and creeks;

(4) install pumps and other equipment necessary to recharge a groundwater reservoir or its subdivision; and

(5) provide necessary facilities for water conservation purposes.

Sec. 36.104. PURCHASE, SALE, TRANSPORTATION, AND DISTRIBUTION OF WATER. A district may purchase, sell, transport, and distribute surface water or groundwater. Added by Acts 1995, 74th Leg., ch. 933, Sec. 2, eff. Sept. 1, 1995. Amended by Acts 2003, 78th Leg., ch. 560, Sec. 2, eff. Sept. 1, 2003.

Sec. 36.105. EMINENT DOMAIN. (a) A district may exercise the power of eminent domain to acquire by condemnation a fee simple or other interest in property if that property interest is:

(1) within the boundaries of the district; and  
(2) necessary for conservation purposes, including recharge and reuse.

(b) The power of eminent domain authorized in this section may not be used for the condemnation of land for the purpose of:

(1) acquiring rights to groundwater, surface water or water rights; or  
(2) production, sale, or distribution of

groundwater or surface water.

(c) The district must exercise the power of eminent domain in the manner provided by Chapter 21, Property Code, but the district is not required to deposit a bond as provided by Section 21.021(a), Property Code.

(d) In a condemnation proceeding brought by a district, the district is not required to pay in advance or give bond or other security for costs in the trial court, to give bond for the issuance of a temporary restraining order or a temporary injunction, or to give bond for costs or supersedeas on an appeal or writ of error.

(e) In exercising the power of eminent domain, if the district requires relocating, raising, lowering, rerouting, changing the grade, or altering the construction of any railroad, highway, pipeline, or electric transmission or distribution, telegraph, or telephone lines, conduits, poles, or facilities, the district must bear the actual cost of relocating, raising, lowering, rerouting, changing the grade, or altering the construction to provide comparable replacement without enhancement of facilities after deducting the net salvage value derived from the old facility.

1, 1995. Amended by Acts 2003, 78th Leg., ch. 560, Sec. 3, eff. Sept. 1, 2003.

Sec. 36.106. SURVEYS. A district may make surveys of the groundwater reservoir or subdivision and surveys of the facilities in order to determine the quantity of water available for production and use and to determine the improvements, development, and recharging needed by a reservoir or its subdivision.

Added by Acts 1995, 74th Leg., ch. 933, Sec. 2, eff. Sept. 1, 1995. Amended by Acts 2003, 78th Leg., ch. 560, Sec. 4, eff. Sept. 1, 2003.

Sec. 36.107. RESEARCH. A district may carry out any research projects deemed necessary by the board.

Added by Acts 1995, 74th Leg., ch. 933, Sec. 2, eff. Sept. 1, 1995. Amended by Acts 1997, 75th Leg., ch. 1010, Sec. 4.28, eff. Sept. 1, 1997.

Sec. 36.1071. MANAGEMENT PLAN. (a) Following notice and hearing, the district shall, in coordination with surface water management entities on a regional basis, develop a management plan that addresses the following management goals, as applicable:

(1) providing the most efficient use of groundwater;

(2) controlling and preventing waste of groundwater;

(3) controlling and preventing subsidence;

(4) addressing conjunctive surface water management issues;

(5) addressing natural resource issues;

(6) addressing drought conditions;

(7) addressing conservation, recharge enhancement, rainwater harvesting, precipitation enhancement, or brush control, where appropriate and cost-effective; and

(8) addressing the desired future conditions adopted by the district under Section 36.108.

(b) The management plan, or any amendments to the plan, shall be developed using the district's best available data and forwarded to the regional water planning group for use in their planning process.

(c) The commission and the Texas Water Development Board shall provide technical assistance to a district in the development of the management plan required under Subsection (a) which may include, if requested by the district, a preliminary review and comment on the plan

prior to final approval by the board. If such review and comment by the commission is requested, the commission shall provide comment not later than 30 days from the date the request is received.

(d) The commission shall provide technical assistance to a district during its initial operational phase. If requested by a district, the Texas Water Development Board shall train the district on basic data collection methodology and provide technical assistance to districts.

(e) In the management plan described under Subsection (a), the district shall:

(1) identify the performance standards and management objectives under which the district will operate to achieve the management goals identified under Subsection (a);

(2) specify, in as much detail as possible, the actions, procedures, performance, and avoidance that are or may be necessary to effect the plan, including specifications and proposed rules;

(3) include estimates of the following:

(A) modeled available groundwater in the district based on the desired future condition established under Section 36.108;

(B) the amount of groundwater being used within the district on an annual basis;

(C) the annual amount of recharge from precipitation, if any, to the groundwater resources within the district;

(D) for each aquifer, the annual volume of water that discharges from the aquifer to springs and any surface water bodies, including lakes, streams, and rivers;

(E) the annual volume of flow into and out of the district within each aquifer and between aquifers in the district, if a groundwater availability model is available;

(F) the projected surface water supply in the district according to the most recently adopted state water plan; and

(G) the projected total demand for water in the district according to the most recently adopted state water plan; and

(4) consider the water supply needs and water management strategies included in the adopted state water plan.

(f) The district shall adopt rules necessary to implement the management plan. Prior to the development

of the management plan and its approval under Section 36.1072, the district may not adopt rules other than rules pertaining to the registration and interim permitting of new and existing wells and rules governing spacing and procedure before the district's board; however, the district may not adopt any rules limiting the production of wells, except rules requiring that groundwater produced from a well be put to a nonwasteful, beneficial use. The district may accept applications for permits under Section 36.113, provided the district does not act on any such application until the district's management plan is approved as provided in Section 36.1072.

(g) The district shall adopt amendments to the management plan as necessary. Amendments to the management plan shall be adopted after notice and hearing and shall otherwise comply with the requirements of this section.

(h) In developing its management plan, the district shall use the groundwater availability modeling information provided by the executive administrator together with any available site-specific information that has been provided by the district to the executive administrator for review and comment before being used in the plan.

Sec. 36.1072. TEXAS WATER DEVELOPMENT BOARD REVIEW AND APPROVAL OF MANAGEMENT PLAN. (a) In this section, "development board" means the Texas Water Development Board.

(a-1) A district shall, not later than three years after the creation of the district or, if the district required confirmation, not later than three years after the election confirming the district's creation, submit the management plan required under Section 36.1071 to the

executive administrator for review and approval.

(b) Within 60 days of receipt of a district's management plan adopted under Section 36.1071, readopted under Subsection (e) or (g) of this section, or amended under Section 36.1073, the executive administrator shall approve the district's plan if the plan is administratively complete. A management plan is administratively complete when it contains the information required to be submitted under Section 36.1071(a) and (e). The executive administrator may determine whether conditions justify waiver of the requirements under Section 36.1071(e)(4).

(c) Once the executive administrator has approved a district's management plan:

(1) the executive administrator may not revoke but may require revisions to the approved management plan as provided by Subsection (g); and

(2) the executive administrator may request additional information from the district if the information is necessary to clarify, modify, or supplement previously submitted material, but a request for additional information does not render the management plan unapproved.

(d) A management plan takes effect on approval by the executive administrator or, if appealed, on approval by

the development board.

(e) The district may review the plan annually and must review and readopt the plan with or without revisions at least once every five years. The district shall provide the readopted plan to the executive administrator not later than the 60th day after the date on which the plan was readopted. Approval of the preceding management plan remains in effect until:

(1) the district fails to timely readopt a management plan;

(2) the district fails to timely submit the district's readopted management plan to the executive administrator; or

(3) the executive administrator determines that the readopted management plan does not meet the requirements for approval, and the district has exhausted all appeals to the Texas Water Development Board or appropriate court.

(f) If the executive administrator does not approve the district's management plan, the executive administrator shall provide to the district, in writing, the reasons for the action. Not later than the 180th day after the date a district receives notice that its management plan has not been approved, the district may

submit a revised management plan for review and approval. The executive administrator's decision may be appealed to the development board. If the development board decides not to approve the district's management plan on appeal, the district may request that the conflict be mediated. The district and the board may seek the assistance of the Center for Public Policy Dispute Resolution at The University of Texas School of Law or an alternative dispute resolution system established under Chapter 152, Civil Practice and Remedies Code, in obtaining a qualified impartial third party to mediate the conflict. The cost of the mediation services must be specified in the agreement between the parties and the Center for Public Policy Dispute Resolution or the alternative dispute resolution system. If the parties do not resolve the conflict through mediation, the decision of the development board not to approve the district's management plan may be appealed to a district court in Travis County. Costs for the appeal shall be set by the court hearing the appeal. An appeal under this subsection is by trial de novo. The commission shall not take enforcement action against a district under Subchapter I until the latest of the expiration of the 180-day period, the date the development board has taken final action

withholding approval of a revised management plan, the date the mediation is completed, or the date a final judgment upholding the board's decision is entered by a district court. An enforcement action may not be taken against a district by the commission or the state auditor under Subchapter I because the district's management plan and the approved regional water plan are in conflict while the parties are attempting to resolve the conflict before the development board, in mediation, or in court. Rules of the district continue in full force and effect until all appeals under this subsection have been exhausted and the final judgment is adverse to the district.

(g) A person with a legally defined interest in groundwater in a district, or the regional water planning group, may file a petition with the development board stating that a conflict requiring resolution may exist between the district's approved management plan developed under Section 36.1071 and the state water plan. If a conflict exists, the development board shall provide technical assistance to and facilitate coordination between the involved person or regional water planning group and the district to resolve the conflict. Not later than the 45th day after the date the person or the regional water planning group files a petition with the development

board, if the conflict has not been resolved, the district and the involved person or regional planning group may mediate the conflict. The district and the involved person or regional planning group may seek the assistance of the Center for Public Policy Dispute Resolution at The University of Texas School of Law or an alternative dispute resolution system established under Chapter 152, Civil Practice and Remedies Code, in obtaining a qualified impartial third party to mediate the conflict. The cost of the mediation services must be specified in the agreement between the parties and the Center for Public Policy Dispute Resolution or the alternative dispute resolution system. If the district and the involved person or regional planning group cannot resolve the conflict through mediation, the development board shall resolve the conflict not later than the 60th day after the date the mediation is completed. The development board action under this provision may be consolidated, at the option of the board, with related action under Section 16.053(p). If the development board determines that resolution of the conflict requires a revision of the approved management plan, the development board shall provide information to the district. The district shall prepare any revisions to the plan based on the information

provided by the development board and shall hold, after notice, at least one public hearing at some central location within the district. The district shall consider all public and development board comments, prepare, revise, and adopt its management plan, and submit the revised management plan to the development board for approval. On the request of the district or the regional water planning group, the development board shall include discussion of the conflict and its resolution in the state water plan that the development board provides to the governor, the lieutenant governor, and the speaker of the house of representatives under Section 16.051(e). If the groundwater conservation district disagrees with the decision of the development board under this subsection, the district may appeal the decision to a district court in Travis County. Costs for the appeal shall be set by the court hearing the appeal. An appeal under this subsection is by trial de novo.

Sec. 36.1073. AMENDMENT TO MANAGEMENT PLAN. Any amendment to the management plan shall be submitted to the executive administrator within 60 days following adoption of the amendment by the district's board. The executive administrator shall review and approve any amendment which substantially affects the management plan in accordance with the procedures established under Section 36.1072.

Sec. 36.108. JOINT PLANNING IN MANAGEMENT AREA.

(a) In this section:

(1) "Development board" means the Texas Water Development Board.

(2) "District representative" means the presiding officer or the presiding officer's designee for any district located wholly or partly in the management area.

(b) If two or more districts are located within the boundaries of the same management area, each district shall forward a copy of that district's new or revised management plan to the other districts in the management area. The boards of the districts shall consider the plans individually and shall compare them to other management plans then in force in the management area.

(c) The district representatives shall meet at least annually to conduct joint planning with the other districts in the management area and to review the management plans, the accomplishments of the management area, and proposals to adopt new or amend existing desired future conditions. In reviewing the management plans, the districts shall consider:

(1) the goals of each management plan and its impact on planning throughout the management area;

(2) the effectiveness of the measures established by each district's management plan for conserving and protecting groundwater and preventing waste, and the effectiveness of these measures in the management area generally;

(3) any other matters that the boards consider relevant to the protection and conservation of groundwater and the prevention of waste in the management area; and

(4) the degree to which each management plan achieves the desired future conditions established during the joint planning process.

(d) Not later than May 1, 2021, and every five years thereafter, the districts shall consider groundwater availability models and other data or information for the management area and shall propose for adoption desired future conditions for the relevant aquifers within the management area. Before voting on the proposed desired future conditions of the aquifers under Subsection (d-2), the districts shall consider:

(1) aquifer uses or conditions within the management area, including conditions that differ substantially from one geographic area to another;

(2) the water supply needs and water management strategies included in the state water plan;

(3) hydrological conditions, including for each aquifer in the management area the total estimated recoverable storage as provided by the executive administrator, and the average annual recharge, inflows, and discharge;

(4) other environmental impacts, including impacts on spring flow and other interactions between groundwater and surface water;

(5) the impact on subsidence;

(6) socioeconomic impacts reasonably expected to occur;

(7) the impact on the interests and rights in private property, including ownership and the rights of management area landowners and their lessees and assigns in groundwater as recognized under Section 36.002;

(8) the feasibility of achieving the desired future condition; and

(9) any other information relevant to the specific desired future conditions.

(d-1) After considering and documenting the factors described by Subsection (d) and other relevant scientific and hydrogeological data, the districts may establish different desired future conditions for:

(1) each aquifer, subdivision of an aquifer, or geologic strata located in whole or in part within the boundaries of the management area; or

(2) each geographic area overlying an aquifer in whole or in part or subdivision of an aquifer within the boundaries of the management area.

(d-2) The desired future conditions proposed under Subsection (d) must provide a balance between the highest practicable level of groundwater production and the

conservation, preservation, protection, recharging, and prevention of waste of groundwater and control of subsidence in the management area. This subsection does not prohibit the establishment of desired future conditions that provide for the reasonable long-term management of groundwater resources consistent with the management goals under Section 36.1071(a). The desired future conditions proposed under Subsection (d) must be approved by a two-thirds vote of all the district representatives for distribution to the districts in the management area. A period of not less than 90 days for public comments begins on the day the proposed desired future conditions are mailed to the districts. During the public comment period and after posting notice as required by Section 36.063, each district shall hold a public hearing on any proposed desired future conditions relevant to that district. During the public comment period, the district shall make available in its office a copy of the proposed desired future conditions and any supporting materials, such as the documentation of factors considered under Subsection (d) and groundwater availability model run results. After the close of the public comment period, the district shall compile for consideration at the next joint planning meeting a summary of relevant comments

received, any suggested revisions to the proposed desired future conditions, and the basis for the revisions.

(d-3) After all the districts have submitted their district summaries, the district representatives shall reconvene to review the reports, consider any district's suggested revisions to the proposed desired future conditions, and finally adopt the desired future conditions for the management area. The desired future conditions must be approved by a resolution adopted by a two-thirds vote of all the district representatives not later than January 5, 2022. Subsequent desired future conditions must be proposed and finally adopted by the district representatives before the end of each successive five-year period after that date. The district representatives shall produce a desired future conditions explanatory report for the management area and submit to the development board and each district in the management area proof that notice was posted for the joint planning meeting, a copy of the resolution, and a copy of the explanatory report. The report must:

- (1) identify each desired future condition;
- (2) provide the policy and technical justifications for each desired future condition;
- (3) include documentation that the factors under

Subsection (d) were considered by the districts and a discussion of how the adopted desired future conditions impact each factor;

(4) list other desired future condition options considered, if any, and the reasons why those options were not adopted; and

(5) discuss reasons why recommendations made by advisory committees and relevant public comments received by the districts were or were not incorporated into the desired future conditions.

(d-4) After a district receives notification from the Texas Water Development Board that the desired future conditions resolution and explanatory report under Subsection (d-3) are administratively complete, the district shall adopt the applicable desired future conditions in the resolution and report.

(e) Except as provided by this section, a joint meeting under this section must be held in accordance with Chapter 551, Government Code. Each district shall comply with Chapter 552, Government Code. The district representatives may elect one district to be responsible for providing the notice of a joint meeting that this section would otherwise require of each district in the management area. Notice of a joint meeting must be

provided at least 10 days before the date of the meeting by:

- (1) providing notice to the secretary of state;
- (2) providing notice to the county clerk of each county located wholly or partly in a district that is located wholly or partly in the management area; and
- (3) posting notice at a place readily accessible to the public at the district office of each district located wholly or partly in the management area.

(e-1) The secretary of state and the county clerk of each county described by Subsection (e) shall post notice of the meeting in the manner provided by Section 551.053, Government Code.

(e-2) Notice of a joint meeting must include:

- (1) the date, time, and location of the meeting;
- (2) a summary of any action proposed to be taken;
- (3) the name of each district located wholly or partly in the management area; and
- (4) the name, telephone number, and address of one or more persons to whom questions, requests for additional information, or comments may be submitted.

(e-3) The failure or refusal of one or more districts to post notice for a joint meeting under Subsection (e)(3) does not invalidate an action taken at the joint meeting.

Sec. 36.1081. TECHNICAL STAFF AND SUBCOMMITTEES FOR JOINT PLANNING. (a) On request, the commission and the Texas Water Development Board shall make technical staff

available to serve in a nonvoting advisory capacity to assist with the development of desired future conditions during the joint planning process under Section 36.108.

(b) During the joint planning process under Section 36.108, the district representatives may appoint and convene nonvoting advisory subcommittees who represent social, governmental, environmental, or economic interests to assist in the development of desired future conditions. Added by Acts 2011, 82nd Leg., R.S., Ch. 1233 (S.B. [660](#)), Sec. 17, eff. September 1, 2011.

Sec. 36.1083. APPEAL OF DESIRED FUTURE CONDITIONS.

(a) In this section:

(1) "Affected person" has the meaning assigned by Section 36.1082.

(2) "Development board" means the Texas Water Development Board.

(3) "Office" means the State Office of Administrative Hearings.

(b) Not later than the 120th day after the date on which a district adopts a desired future condition under Section 36.108(d-4), an affected person may file a petition with the district requiring that the district contract with the office to conduct a hearing appealing the

reasonableness of the desired future condition. The petition must provide evidence that the districts did not establish a reasonable desired future condition of the groundwater resources in the management area.

(c) Repealed by Acts 2015, 84th Leg., R.S., Ch. 993, Sec. 6, eff. September 1, 2015.

(d) Repealed by Acts 2015, 84th Leg., R.S., Ch. 993, Sec. 6, eff. September 1, 2015.

(e) Not later than the 10th day after receiving a petition described by Subsection (b), the district shall submit a copy of the petition to the development board. On receipt of the petition, the development board shall conduct:

(1) an administrative review to determine whether the desired future condition established by the district meets the criteria in Section 36.108(d); and

(2) a study containing scientific and technical analysis of the desired future condition, including consideration of:

(A) the hydrogeology of the aquifer;

(B) the explanatory report provided to the development board under Section 36.108(d-3);

(C) the factors described under Section 36.108(d); and

(D) any relevant:

(i) groundwater availability models;

(ii) published studies;

(iii) estimates of total recoverable storage capacity;

(iv) average annual amounts of recharge, inflows, and discharge of groundwater; or

(v) information provided in the petition or available to the development board.

(f) The development board must complete and deliver to the office a study described by Subsection (e)(2) not later than the 120th day after the date the development board receives a copy of the petition.

(g) For the purposes of a hearing conducted under Subsection (b):

(1) the office shall consider the study described by Subsection (e)(2) and the desired future conditions explanatory report submitted to the development board under Section 36.108(d-3) to be part of the administrative record; and

(2) the development board shall make available relevant staff as expert witnesses if requested by the office or a party to the hearing.

(h) Not later than the 60th day after receiving a

petition under Subsection (b), the district shall:

(1) contract with the office to conduct the contested case hearing requested under Subsection (b); and

(2) submit to the office a copy of any petitions related to the hearing requested under Subsection (b) and received by the district.

(i) A hearing under Subsection (b) must be held:

(1) at a location described by Section 36.403(c); and

(2) in accordance with Chapter 2001, Government Code, and the rules of the office.

(j) During the period between the filing of the petition and the delivery of the study described by Subsection (e)(2), the district may seek the assistance of the Center for Public Policy Dispute Resolution, the development board, or another alternative dispute resolution system to mediate the issues raised in the petition. If the district and the petitioner cannot resolve the issues raised in the petition, the office will proceed with a hearing as described by this section.

(k) The district may adopt rules for notice and hearings conducted under this section that are consistent with the procedural rules of the office. In accordance with rules adopted by the district and the office, the

district shall provide:

(1) general notice of the hearing; and

(2) individual notice of the hearing to:

(A) the petitioner;

(B) any person who has requested notice;

(C) each nonparty district and regional water planning group located in the same management area as a district named in the petition;

(D) the development board; and

(E) the commission.

(1) Before a hearing conducted under this section, the office shall hold a prehearing conference to determine preliminary matters, including:

(1) whether the petition should be dismissed for failure to state a claim on which relief can be granted;

(2) whether a person seeking to participate in the hearing is an affected person who is eligible to participate; and

(3) which affected persons shall be named as parties to the hearing.

(m) The petitioner shall pay the costs associated with the contract for the hearing under this section. The petitioner shall deposit with the district an amount sufficient to pay the contract amount before the hearing

begins. After the hearing, the office may assess costs to one or more of the parties participating in the hearing and the district shall refund any excess money to the petitioner. The office shall consider the following in apportioning costs of the hearing:

(1) the party who requested the hearing;

(2) the party who prevailed in the hearing;

(3) the financial ability of the party to pay the costs;

(4) the extent to which the party participated in the hearing; and

(5) any other factor relevant to a just and reasonable assessment of costs.

(n) On receipt of the administrative law judge's findings of fact and conclusions of law in a proposal for decision, including a dismissal of a petition, the district shall issue a final order stating the district's decision on the contested matter and the district's findings of fact and conclusions of law. The district may change a finding of fact or conclusion of law made by the administrative law judge, or may vacate or modify an order issued by the administrative law judge, as provided by Section 2001.058(e), Government Code.

(o) If the district vacates or modifies the proposal

for decision, the district shall issue a report describing in detail the district's reasons for disagreement with the administrative law judge's findings of fact and conclusions of law. The report shall provide the policy, scientific, and technical justifications for the district's decision.

(p) If the district in its final order finds that a desired future condition is unreasonable, not later than the 60th day after the date of the final order, the districts in the same management area as the district that received the petition shall reconvene in a joint planning meeting for the purpose of revising the desired future condition. The districts in the management area shall follow the procedures in Section 36.108 to adopt new desired future conditions applicable to the district that received the petition.

(q) A final order by the district finding that a desired future condition is unreasonable does not invalidate the adoption of a desired future condition by a district that did not participate as a party in the hearing conducted under this section.

(r) The administrative law judge may consolidate hearings requested under this section that affect two or more districts. The administrative law judge shall

prepare separate findings of fact and conclusions of law for each district included as a party in a multidistrict hearing.

Sec. 36.10835. JUDICIAL APPEAL OF DESIRED FUTURE CONDITIONS. (a) A final district order issued under Section 36.1083 may be appealed to a district court with jurisdiction over any part of the territory of the district that issued the order. An appeal under this subsection must be filed with the district court not later than the 45th day after the date the district issues the final order. The case shall be decided under the substantial evidence standard of review as provided by Section 2001.174, Government Code. If the court finds that a desired future condition is unreasonable, the court shall strike the desired future condition and order the districts in the same management area as the district that received

the petition to reconvene not later than the 60th day after the date of the court order in a joint planning meeting for the purpose of revising the desired future condition. The districts in the management area shall follow the procedures in Section 36.108 to adopt new desired future conditions applicable to the district that received the petition.

(b) A court's finding under this section does not apply to a desired future condition that is not a matter before the court.

Sec. 36.1084. MODELED AVAILABLE GROUNDWATER.

(a) The Texas Water Development Board shall require the districts in a management area to submit to the executive administrator not later than the 60th day after the date on which the districts adopted desired future conditions under Section 36.108(d-3):

(1) the desired future conditions adopted under Section 36.108;

(2) proof that notice was posted for the joint planning meeting; and

(3) the desired future conditions explanatory

report.

(b) The executive administrator shall provide each district and regional water planning group located wholly or partly in the management area with the modeled available groundwater in the management area based upon the desired future conditions adopted by the districts.

Sec. 36.1085. MANAGEMENT PLAN GOALS AND OBJECTIVES. Each district in the management area shall ensure that its management plan contains goals and objectives consistent with achieving the desired future conditions of the relevant aquifers as adopted during the joint planning process.

Sec. 36.1086. JOINT EFFORTS BY DISTRICTS IN A MANAGEMENT AREA. Districts located within the same management areas or in adjacent management areas may contract to jointly conduct studies or research, or to construct projects, under terms and conditions that the districts consider beneficial. These joint efforts may

include studies of groundwater availability and quality, aquifer modeling, and the interaction of groundwater and surface water; educational programs; the purchase and sharing of equipment; and the implementation of projects to make groundwater available, including aquifer recharge, brush control, weather modification, desalination, regionalization, and treatment or conveyance facilities. The districts may contract under their existing authorizations including those of Chapter 791, Government Code, if their contracting authority is not limited by Sections 791.011(c)(2) and (d)(3) and Section 791.014, Government Code.

Sec. 36.109. COLLECTION OF INFORMATION. A district may collect any information the board deems necessary, including information regarding the use of groundwater, water conservation, and the practicability of recharging a groundwater reservoir. At the request of the executive administrator, the district shall provide any data collected by the district in a format acceptable to the executive administrator.

Sec. 36.110. PUBLICATION OF PLANS AND INFORMATION.

A district may publish its plans and the information it develops, bring them to the attention of the users of groundwater in the district, and encourage the users to adopt and use them.

Added by Acts 1995, 74th Leg., ch. 933, Sec. 2, eff. Sept. 1, 1995.

Sec. 36.111. RECORDS AND REPORTS. (a) The district may require that records be kept and reports be made of the drilling, equipping, and completing of water wells and of the production and use of groundwater.

(b) In implementing Subsection (a), a district may adopt rules that require an owner or operator of a water well that is required to be registered with or permitted by the district, except for the owner or operator of a well that is exempt from permit requirements under Section 36.117(b)(1), to report groundwater withdrawals using reasonable and appropriate reporting methods and

frequency.

Sec. 36.112. DRILLERS' LOGS. A district shall require that accurate drillers' logs be kept of water wells and that copies of drillers' logs and electric logs be filed with the district.

Added by Acts 1995, 74th Leg., ch. 933, Sec. 2, eff. Sept. 1, 1995.

Sec. 36.113. PERMITS FOR WELLS; PERMIT AMENDMENTS.  
(a) Except as provided by Section 36.117, a district shall require a permit for the drilling, equipping, operating, or completing of wells or for substantially altering the size of wells or well pumps. A district may require that a change in the withdrawal or use of groundwater during the term of a permit issued by the district may not be made unless the district has first approved a permit amendment authorizing the change.

(a-1) A district may not require a permit or a permit

amendment for maintenance or repair of a well if the maintenance or repair does not increase the production capabilities of the well to more than its authorized or permitted production rate.

(b) A district shall require that an application for a permit or a permit amendment be in writing and sworn to.

(c) A district may require that only the following be included in the permit or permit amendment application, as applicable under the rules of the district:

(1) the name and mailing address of the applicant and the owner of the land on which the well will be located;

(2) if the applicant is other than the owner of the property, documentation establishing the applicable authority to construct and operate a well for the proposed use;

(3) a statement of the nature and purpose of the proposed use and the amount of water to be used for each purpose;

(4) a water conservation plan or a declaration that the applicant will comply with the district's management plan;

(5) the location of each well and the estimated rate at which water will be withdrawn;

(6) a water well closure plan or a declaration

that the applicant will comply with well plugging guidelines and report closure to the commission;

(7) a drought contingency plan; and

(8) other information:

(A) included in a rule of the district in effect on the date the application is submitted that specifies what information must be included in an application for a determination of administrative completeness; and

(B) reasonably related to an issue that a district by law is authorized to consider.

(d) This subsection does not apply to the renewal of an operating permit issued under Section 36.1145. Before granting or denying a permit, or a permit amendment issued in accordance with Section 36.1146, the district shall consider whether:

(1) the application conforms to the requirements prescribed by this chapter and is accompanied by the prescribed fees;

(2) the proposed use of water unreasonably affects existing groundwater and surface water resources or existing permit holders;

(3) the proposed use of water is dedicated to any beneficial use;

(4) the proposed use of water is consistent with the district's approved management plan;

(5) if the well will be located in the Hill Country Priority Groundwater Management Area, the proposed use of water from the well is wholly or partly to provide water to a pond, lake, or reservoir to enhance the appearance of the landscape;

(6) the applicant has agreed to avoid waste and achieve water conservation; and

(7) the applicant has agreed that reasonable diligence will be used to protect groundwater quality and that the applicant will follow well plugging guidelines at the time of well closure.

(e) The district may impose more restrictive permit conditions on new permit applications and permit amendment applications to increase use by historic users if the limitations:

(1) apply to all subsequent new permit applications and permit amendment applications to increase use by historic users, regardless of type or location of use;

(2) bear a reasonable relationship to the existing district management plan; and

(3) are reasonably necessary to protect existing

use.

(f) This subsection does not apply to the renewal of an operating permit issued under Section 36.1145. Permits, and permit amendments issued in accordance with Section 36.1146, may be issued subject to the rules promulgated by the district and subject to terms and provisions with reference to the drilling, equipping, completion, alteration, or operation of, or production of groundwater from, wells or pumps that may be necessary to prevent waste and achieve water conservation, minimize as far as practicable the drawdown of the water table or the reduction of artesian pressure, lessen interference between wells, or control and prevent subsidence.

(h) In issuing a permit for an existing or historic use, a district may not discriminate between land that is irrigated for production and land or wells on land that was irrigated for production and enrolled or participating in a federal conservation program.

(i) A permitting decision by a district is void if:

(1) the district makes its decision in violation of Subsection (h); and

(2) the district would have reached a different decision if the district had treated land or wells on land that was irrigated for production and enrolled or

participating in a federal conservation program the same as land irrigated for production.

(1) the name and address of the person to whom the permit is issued;

(2) the location of the well;

(3) the date the permit is to expire if no well is drilled;

(4) a statement of the purpose for which the well is to be used;

(5) a requirement that the water withdrawn under the permit be put to beneficial use at all times;

(6) the location of the use of the water from the well;

(7) a water well closure plan or a declaration that the applicant will comply with well plugging guidelines and report closure to the commission;

(8) the conditions and restrictions, if any, placed on the rate and amount of withdrawal;

(9) any conservation-oriented methods of drilling and operating prescribed by the district;

(10) a drought contingency plan prescribed by the district; and

(11) other terms and conditions as provided by Section 36.113.

Sec. 36.1132. PERMITS BASED ON MODELED AVAILABLE GROUNDWATER. (a) A district, to the extent possible, shall issue permits up to the point that the total volume of exempt and permitted groundwater production will achieve an applicable desired future condition under Section 36.108.

(b) In issuing permits, the district shall manage total groundwater production on a long-term basis to achieve an applicable desired future condition and consider:

(1) the modeled available groundwater determined by the executive administrator;

(2) the executive administrator's estimate of the current and projected amount of groundwater produced under exemptions granted by district rules and Section 36.117;

(3) the amount of groundwater authorized under permits previously issued by the district;

(4) a reasonable estimate of the amount of groundwater that is actually produced under permits issued by the district; and

(5) yearly precipitation and production

patterns.

(c) In developing the estimate of exempt use under Subsection (b)(2), the executive administrator shall solicit information from each applicable district.

Sec. 36.114. PERMIT; PERMIT AMENDMENT; APPLICATION AND HEARING. (a) The district by rule shall determine each activity regulated by the district for which a permit or permit amendment is required.

(b) For each activity for which the district determines a permit or permit amendment is required under Subsection (a), and that is not exempt from a hearing requirement under Section 36.1145, the district by rule shall determine whether a hearing on the permit or permit amendment application is required.

(c) For all applications for which a hearing is not required under Subsection (b) or Section 36.1145, the board shall act on the application at a meeting, as defined by Section 551.001, Government Code, unless the board by rule

has delegated to the general manager the authority to act on the application.

(d) The district shall promptly consider and act on each administratively complete application for a permit or permit amendment as provided by Subsection (c) or Subchapter M.

(e) If, within 60 days after the date an administratively complete application is submitted, the application has not been acted on or set for a hearing on a specific date, the applicant may petition the district court of the county where the land is located for a writ of mandamus to compel the district to act on the application or set a date for a hearing on the application, as appropriate.

(f) For applications requiring a hearing, the initial hearing shall be held within 35 days after the setting of the date, and the district shall act on the application within 60 days after the date the final hearing on the application is concluded.

(g) The district may by rule set a time when an application will expire if the information requested in the application is not provided to the district.

(h) An application is administratively complete if it contains the information set forth under Sections 36.113

and 36.1131. A district shall not require that additional information be included in an application for a determination of administrative completeness.

Sec. 36.1145. OPERATING PERMIT RENEWAL. (a) Except as provided by Subsection (b), a district shall without a hearing renew or approve an application to renew an operating permit before the date on which the permit expires, provided that:

(1) the application, if required by the district, is submitted in a timely manner and accompanied by any required fees in accordance with district rules; and

(2) the permit holder is not requesting a change

related to the renewal that would require a permit amendment under district rules.

(b) A district is not required to renew a permit under this section if the applicant:

(1) is delinquent in paying a fee required by the district;

(2) is subject to a pending enforcement action for a substantive violation of a district permit, order, or rule that has not been settled by agreement with the district or a final adjudication; or

(3) has not paid a civil penalty or has otherwise failed to comply with an order resulting from a final adjudication of a violation of a district permit, order, or rule.

(c) If a district is not required to renew a permit under Subsection (b)(2), the permit remains in effect until the final settlement or adjudication on the matter of the substantive violation.

Sec. 36.1146. CHANGE IN OPERATING PERMITS. (a) If the holder of an operating permit, in connection with the renewal of a permit or otherwise, requests a change that

requires an amendment to the permit under district rules, the permit as it existed before the permit amendment process remains in effect until the later of:

(1) the conclusion of the permit amendment or renewal process, as applicable; or

(2) final settlement or adjudication on the matter of whether the change to the permit requires a permit amendment.

(b) If the permit amendment process results in the denial of an amendment, the permit as it existed before the permit amendment process shall be renewed under Section 36.1145 without penalty, unless Subsection (b) of that section applies to the applicant.

(c) A district may initiate an amendment to an operating permit, in connection with the renewal of a permit or otherwise, in accordance with the district's rules. If a district initiates an amendment to an operating permit, the permit as it existed before the permit amendment process shall remain in effect until the conclusion of the permit amendment or renewal process, as applicable.

Sec. 36.115. DRILLING OR ALTERING WELL WITHOUT PERMIT. (a) No person, firm, or corporation may drill a well without first obtaining a permit from the district.

(b) No person, firm, or corporation may alter the size of a well or well pump such that it would bring that well under the jurisdiction of the district without first obtaining a permit from the district.

(c) No person, firm, or corporation may operate a well without first obtaining a permit from the district.

(d) A violation occurs on the first day the drilling, alteration, or operation begins and continues each day thereafter until the appropriate permits are approved.

Added by Acts 1995, 74th Leg., ch. 933, Sec. 2, eff. Sept. 1, 1995.

Sec. 36.116. REGULATION OF SPACING AND PRODUCTION.

(a) In order to minimize as far as practicable the drawdown of the water table or the reduction of artesian pressure, to control subsidence, to prevent interference between wells, to prevent degradation of water quality, or to prevent waste, a district by rule may regulate:

(1) the spacing of water wells by:

(A) requiring all water wells to be spaced a certain distance from property lines or adjoining

wells;

(B) requiring wells with a certain production capacity, pump size, or other characteristic related to the construction or operation of and production from a well to be spaced a certain distance from property lines or adjoining wells; or

(C) imposing spacing requirements adopted by the board; and

(2) the production of groundwater by:

(A) setting production limits on wells;

(B) limiting the amount of water produced based on acreage or tract size;

(C) limiting the amount of water that may be produced from a defined number of acres assigned to an authorized well site;

(D) limiting the maximum amount of water that may be produced on the basis of acre-feet per acre or gallons per minute per well site per acre;

(E) managed depletion; or

(F) any combination of the methods listed above in Paragraphs (A) through (E).

(b) In promulgating any rules limiting groundwater production, the district may preserve historic or existing use before the effective date of the rules to the maximum

extent practicable consistent with the district's management plan under Section 36.1071 and as provided by Section 36.113.

(c) In regulating the production of groundwater based on tract size or acreage, a district may consider the service needs or service area of a retail public utility. For the purposes of this subsection, "retail public utility" shall have the meaning provided by Section 13.002.

(d) For better management of the groundwater resources located in a district or if a district determines that conditions in or use of an aquifer differ substantially from one geographic area of the district to another, the district may adopt different rules for:

(1) each aquifer, subdivision of an aquifer, or geologic strata located in whole or in part within the boundaries of the district; or

(2) each geographic area overlying an aquifer or subdivision of an aquifer located in whole or in part within the boundaries of the district.

(e) In regulating the production of groundwater under Subsection (a)(2), a district:

(1) shall select a method that is appropriate based on the hydrogeological conditions of the aquifer or

aquifers in the district; and

(2) may limit the amount of water produced based on contiguous surface acreage.

Sec. 36.117. EXEMPTIONS; EXCEPTION; LIMITATIONS.

(a) A district by rule may provide an exemption from the district's requirement to obtain any permit required by this chapter or the district's rules.

(b) Except as provided by this section, a district shall provide an exemption from the district requirement to obtain a permit for:

(1) drilling or operating a well used solely for domestic use or for providing water for livestock or poultry if the well is:

(A) located or to be located on a tract of land larger than 10 acres; and

(B) drilled, completed, or equipped so that it is incapable of producing more than 25,000 gallons of groundwater a day;

(2) drilling a water well used solely to supply water for a rig that is actively engaged in drilling or exploration operations for an oil or gas well permitted by the Railroad Commission of Texas provided that the person holding the permit is responsible for drilling and operating the water well and the water well is located on the same lease or field associated with the drilling rig; or

(3) drilling a water well authorized under a permit issued by the Railroad Commission of Texas under Chapter 134, Natural Resources Code, or for production from the well to the extent the withdrawals are required for mining activities regardless of any subsequent use of the water.

(c) A district may not restrict the production of water from any well described by Subsection (b)(1).

(d) A district may cancel a previously granted exemption and may require an operating permit for or restrict production from a well and assess any appropriate fees if:

(1) the groundwater withdrawals that were exempted under Subsection (b)(1) are no longer used solely for domestic use or to provide water for livestock or poultry;

(2) the groundwater withdrawals that were exempted under Subsection (b)(2) are no longer used solely to supply water for a rig that is actively engaged in drilling or exploration operations for an oil or gas well permitted by the Railroad Commission of Texas; or

(3) the groundwater withdrawals that were exempted under Subsection (b)(3) are no longer necessary for mining activities or are greater than the amount necessary for mining activities specified in the permit issued by the Railroad Commission of Texas under Chapter 134, Natural Resources Code.

(e) An entity holding a permit issued by the Railroad Commission of Texas under Chapter 134, Natural Resources Code, that authorizes the drilling of a water well shall report monthly to the district:

(1) the total amount of water withdrawn during

the month;

(2) the quantity of water necessary for mining activities; and

(3) the quantity of water withdrawn for other purposes.

(f) A district may require compliance with the district's well spacing rules for the drilling of any well except a well exempted under Subsection (b)(3).

(g) A district may not deny an application for a permit to drill and produce water for hydrocarbon production activities if the application meets all applicable rules as promulgated by the district.

(h) A district shall require the owner of a water well to:

(1) register the well in accordance with rules promulgated by the district; and

(2) equip and maintain the well to conform to the district's rules requiring installation of casing, pipe, and fittings to prevent the escape of groundwater from a groundwater reservoir to any reservoir not containing groundwater and to prevent the pollution or harmful alteration of the character of the water in any groundwater reservoir.

(i) The driller of a well shall file with the

district the well log required by Section 1901.251, Occupations Code, and, if available, the geophysical log.

(j) An exemption provided under Subsection (b) does not apply to a well if the groundwater withdrawn is used to supply water for a subdivision of land for which a plat approval is required by Chapter 232, Local Government Code.

(k) Groundwater withdrawn under an exemption provided in accordance with this section and subsequently transported outside the boundaries of the district is subject to any applicable production and export fees under Sections 36.122 and 36.205.

(l) This chapter applies to water wells, including water wells used to supply water for activities related to the exploration or production of hydrocarbons or minerals. This chapter does not apply to production or injection wells drilled for oil, gas, sulphur, uranium, or brine, or for core tests, or for injection of gas, saltwater, or other fluids, under permits issued by the Railroad Commission of Texas.

Sec. 36.118. OPEN OR UNCOVERED WELLS. (a) A district may require the owner or lessee of land on which an open or uncovered well is located to keep the well permanently closed or capped with a covering capable of sustaining weight of at least 400 pounds, except when the well is in actual use.

(b) As used in this section, "open or uncovered well" means an artificial excavation dug or drilled for the purpose of exploring for or producing water from the groundwater reservoir and is not capped or covered as required by this chapter.

(c) If the owner or lessee fails or refuses to close or cap the well in compliance with this chapter in accordance with district rules, any person, firm, or

corporation employed by the district may go on the land and close or cap the well safely and securely.

(d) Reasonable expenses incurred by the district in closing or capping a well constitute a lien on the land on which the well is located.

(e) The lien arises and attaches upon recordation in the deed records of the county where the well is located an affidavit, executed by any person conversant with the facts, stating the following:

(1) the existence of the well;

(2) the legal description of the property on which the well is located;

(3) the approximate location of the well on the property;

(4) the failure or refusal of the owner or lessee, after notification, to close the well within 10 days after the notification;

(5) the closing of the well by the district, or by an authorized agent, representative, or employee of the district; and

(6) the expense incurred by the district in closing the well.

(f) Nothing in this section affects the enforcement of Subchapter A, Chapter 756, Health and Safety Code.

Added by Acts 1995, 74th Leg., ch. 933, Sec. 2, eff. Sept. 1, 1995.

Sec. 36.119. ILLEGAL DRILLING AND OPERATION OF WELL; CITIZEN SUIT. (a) Drilling or operating a well or wells without a required permit or producing groundwater in violation of a district rule adopted under Section 36.116(a)(2) is declared to be illegal, wasteful per se, and a nuisance.

(b) Except as provided by this section, a landowner or other person who has a right to produce groundwater from land that is adjacent to the land on which a well or wells are drilled or operated without a required permit or permits or from which groundwater is produced in violation of a district rule adopted under Section 36.116(a)(2), or who owns or otherwise has a right to produce groundwater from land that lies within one-half mile of the well or wells, may sue the owner of the well or wells in a court of competent jurisdiction to restrain or enjoin the illegal drilling, operation, or both. The suit may be brought with or without the joinder of the district.

(c) Except as provided by this section, the aggrieved party may also sue the owner of the well or wells for damages for injuries suffered by reason of the illegal

operation or production and for other relief to which the party may be entitled. In a suit for damages against the owner of the well or wells, the existence of a well or wells drilled without a required permit or the operation of a well or wells in violation of a district rule adopted under Section 36.116(a)(2) is prima facie evidence of illegal drainage.

(d) The suit may be brought in the county where the illegal well is located or in the county where all or part of the affected land is located.

(e) The remedies provided by this section are cumulative of other remedies available to the individual or the district.

(f) A suit brought under this section shall be advanced for trial and determined as expeditiously as possible. The court shall not grant a postponement or continuance, including a first motion, except for reasons considered imperative by the court.

(g) Before filing a suit under Subsection (b) or (c), an aggrieved party must file a written complaint with the district having jurisdiction over the well or wells drilled or operated without a required permit or in violation of a district rule. The district shall investigate the complaint and, after notice and hearing and not later than

the 90th day after the date the written complaint was received by the district, the district shall determine, based on the evidence presented at the hearing, whether a district rule has been violated. The aggrieved party may only file a suit under this section on or after the 91st day after the date the written complaint was received by the district.

(h) Notwithstanding Subsection (g), an aggrieved party under Subsection (b) may sue a well owner or well driller in a court of competent jurisdiction to restrain or enjoin the drilling or completion of an illegal well after filing the written complaint with the district under Subsection (g) and without the need to wait for a hearing on the matter.

Sec. 36.120. INFORMATION. On request of the executive director or the executive administrator, the district shall make available information that it acquires concerning the groundwater resources within its

jurisdiction. The district shall also provide information to the commission and Texas Water Development Board concerning its plans and activities in conserving and protecting groundwater resources. On request of a district, the executive director and the executive administrator shall provide information they acquire concerning the groundwater resources within the district's jurisdiction.

Sec. 36.121. LIMITATION ON RULEMAKING POWER OF DISTRICTS OVER WELLS IN CERTAIN COUNTIES. Except as provided by Section 36.117, a district that is created under this chapter on or after September 1, 1991, shall exempt from regulation under this chapter a well and any water produced or to be produced by a well that is located in a county that has a population of 14,000 or less if the water is to be used solely to supply a municipality that has a population of 121,000 or less and the rights to the water produced from the well are owned by a political subdivision that is not a municipality, or by a municipality that has a population of 115,000 or less, and that purchased, owned, or held rights to the water before

the date on which the district was created, regardless of the date the well is drilled or the water is produced. The district may not prohibit the political subdivision or municipality from transporting produced water inside or outside the district's boundaries.

Sec. 36.122. TRANSFER OF GROUNDWATER OUT OF DISTRICT. (a) If an application for a permit or an amendment to a permit under Section 36.113 proposes the transfer of groundwater outside of a district's boundaries, the district may also consider the provisions of this section in determining whether to grant or deny the permit or permit amendment.

(b) A district may promulgate rules requiring a

person to obtain a permit or an amendment to a permit under Section 36.113 from the district for the transfer of groundwater out of the district to:

(1) increase, on or after March 2, 1997, the amount of groundwater to be transferred under a continuing arrangement in effect before that date; or

(2) transfer groundwater out of the district on or after March 2, 1997, under a new arrangement.

(c) Except as provided in Section 36.113(e), the district may not impose more restrictive permit conditions on transporters than the district imposes on existing in-district users.

(d) The district may impose a reasonable fee for processing an application under this section. The fee may not exceed fees that the district imposes for processing other applications under Section 36.113. An application filed to comply with this section shall be considered and processed under the same procedures as other applications for permits under Section 36.113 and shall be combined with applications filed to obtain a permit for in-district water use under Section 36.113 from the same applicant.

(e) The district may impose an export fee or surcharge using one of the following methods:

(1) a fee negotiated between the district and

the exporter;

(2) a rate not to exceed the equivalent of the district's tax rate per hundred dollars of valuation for each thousand gallons of water exported from the district or 2.5 cents per thousand gallons of water, if the district assesses a tax rate of less than 2.5 cents per hundred dollars of valuation; or

(3) for a fee-based district, a 50 percent surcharge, in addition to the district's production fee, for water exported from the district.

(f) In reviewing a proposed transfer of groundwater out of the district, the district shall consider:

(1) the availability of water in the district and in the proposed receiving area during the period for which the water supply is requested;

(2) the projected effect of the proposed transfer on aquifer conditions, depletion, subsidence, or effects on existing permit holders or other groundwater users within the district; and

(3) the approved regional water plan and approved district management plan.

(g) The district may not deny a permit based on the fact that the applicant seeks to transfer groundwater outside of the district but may limit a permit issued under

this section if conditions in Subsection (f) warrant the limitation, subject to Subsection (c).

(h) In addition to conditions provided by Section 36.1131, the permit shall specify:

(1) the amount of water that may be transferred out of the district; and

(2) the period for which the water may be transferred.

(i) The period specified by Subsection (h)(2) shall be:

(1) at least three years if construction of a conveyance system has not been initiated prior to the issuance of the permit; or

(2) at least 30 years if construction of a conveyance system has been initiated prior to the issuance of the permit.

(j) A term under Subsection (i)(1) shall automatically be extended to the terms agreed to under Subsection (i)(2) if construction of a conveyance system is begun before the expiration of the initial term.

(j-1) A district shall extend a term under Subsection (i)(2) or (j) on or before its expiration in the manner prescribed by Section 36.1145:

(1) to a term that is not shorter than the term

of an operating permit for the production of water to be transferred that is in effect at the time of the extension; and

(2) for each additional term for which that operating permit for production is renewed under Section 36.1145 or remains in effect under Section 36.1146.

(j-2) A permit extended under Subsection (j-1) continues to be subject to conditions contained in the permit as issued before the extension.

(k) Notwithstanding the period specified under Subsection (i), (j), or (j-1) during which water may be transferred under a permit, a district may periodically review the amount of water that may be transferred under the permit and may limit the amount if additional factors considered in Subsection (f) warrant the limitation, subject to Subsection (c). The review described by this subsection may take place not more frequently than the period provided for the review or renewal of regular permits issued by the district. In its determination of whether to renew a permit issued under this section, the district shall consider relevant and current data for the conservation of groundwater resources and shall consider the permit in the same manner it would consider any other permit in the district.

(l) A district is prohibited from using revenues obtained under Subsection (e) to prohibit the transfer of groundwater outside of a district. A district is not prohibited from using revenues obtained under Subsection (e) for paying expenses related to enforcement of this chapter or district rules.

(m) A district may not prohibit the export of groundwater if the purchase was in effect on or before June 1, 1997.

(n) This section applies only to a transfer of water that is permitted after September 1, 1997.

(o) A district shall adopt rules as necessary to implement this section but may not adopt rules expressly prohibiting the export of groundwater.

(p) Subsection (e) does not apply to a district that is collecting an export fee or surcharge on March 1, 2001.

(q) In applying this section, a district must be fair, impartial, and nondiscriminatory.

(r) The district may grant or deny an application to extend a term under Subsection (i)(2) or (j) submitted under this section only using rules that were in effect at the time the application was submitted.

(s) An application to extend a term under Subsection (i)(2) or (j) is governed solely by district rules

consistent with Subsection (j-1).

Sec. 36.123. RIGHT TO ENTER LAND. (a) The directors, engineers, attorneys, agents, operators, and employees of a district or water supply corporation may go on any land to inspect, make surveys, or perform tests to determine the condition, value, and usability of the property, with reference to the proposed location of works, improvements, plants, facilities, equipment, or appliances. The cost of restoration shall be borne by the district or the water supply corporation.

(b) District employees and agents are entitled to enter any public or private property within the boundaries of the district or adjacent to any reservoir or other

property owned by the district at any reasonable time for the purpose of inspecting and investigating conditions relating to the quality of water in the state or the compliance with any rule, regulation, permit, or other order of the district. District employees or agents acting under this authority who enter private property shall observe the establishment's rules and regulations concerning safety, internal security, and fire protection and shall notify any occupant or management of their presence and shall exhibit proper credentials.

Sec. 36.124. DISTRICT ACT OR PROCEEDING PRESUMED VALID. (a) A governmental act or proceeding of a district is conclusively presumed, as of the date it occurred, valid and to have occurred in accordance with all applicable statutes and rules if:

(1) the third anniversary of the effective date of the act or proceeding has expired; and

(2) a lawsuit to annul or invalidate the act or proceeding has not been filed on or before that third anniversary.

(b) This section does not apply to:

(1) an act or proceeding that was void at the time it occurred;

(2) an act or proceeding that, under a statute of this state or the United States, was a misdemeanor or felony at the time the act or proceeding occurred;

(3) a rule that, at the time it was passed, was preempted by a statute of this state or the United States, including Section 1.06 or 109.57, Alcoholic Beverage Code; or

(4) a matter that on the effective date of this section:

(A) is involved in litigation if the litigation ultimately results in the matter being held invalid by a final judgment of a court; or

(B) has been held invalid by a final judgment of a court.

(e) The orders or resolutions authorizing the issuance of the refunding bonds may provide that they be sold and the proceeds deposited in the place or places at which the bonds or notes being refunded are payable, in which case the refunding bonds may be issued before the cancellation of the bonds or notes being refunded. If refunding bonds are issued before cancellation of the other bonds or notes, an amount sufficient to pay the principal of and interest on the bonds or notes being refunded to their maturity dates, or to their option dates if the bonds or notes have been duly called for payment prior to maturity according to their terms, shall be deposited in the place or places at which the bonds or notes being refunded are payable. The comptroller shall register the refunding bonds without the surrender and cancellation of bonds or notes being refunded.
